

## **It's Not Nice to be Lost!**

**Somebody out there may be searching for this beautiful and friendly female collie, found in Geashill around the middle of June. She was looking lost and lonely, but clearly had been well cared for. Enquiries made to date have failed to locate an owner so it is unlikely that she is from the Geashill area. If she is still unclaimed by this week-end she will be on the look out for an adoptive home.**

**Saffi, as she has been re-christened, has been in the care of Offaly SPCA members since June 16th. She has made a number of new two-legged admirers and displays also a willingness to accept any paw of friendship offered by fellow canines. She walks well on a lead – and indeed, all the characteristics she has displayed have been very, very good. A veterinary inspection has given her a clean bill of health and an estimated age of about seven years.**
