

# Isn't He a Handsome Chap!

This very photogenic Yorkshire terrier is a male dog taken into care last week by the Offaly SPCA after a number of people reported seeing him 'on the loose' in the Clara/Srah Road area of Tullamore on successive days. He was wearing a collar but had no identification disc.

If he were a human, 'Yorkie' could earn a good living as a fashion model because he seems to love posing for photographs! He is friendly with other dogs and with people so if he is not claimed by his owner he will make a very charming pet for an adoptive family. Inquiries may be made by 'phoning 086 3785584 .

Incidentally, the three-legged pup 'Bandit' featured in last week's OSPCA bulletin is making a very good recovery from his accident and subsequent amputation. Watch out next week for further good news about him – and about his four siblings! There will be news also about availability of a number of kittens looking for good homes.
